

## Höfle – Gandlätsch 1050m.

Silbertal 899m. - Höfle 900m. - Gandlätsch 1050m. - Same way back or over metalled road towards Silbertal

**Starting point:** Church Silbertal 899m. [Schruns - Montafon].

**Total time:** about 1 hour.

**Difficulties:** Metalled roads, forrest footpaths and through alps. Well marked with signposts.

**Rating:** \*

**Why worthy?:** Beautiful view from both parzelles Höfle and Gandlätsch. Restful and short tour without much height differences

### **ROUTE DESCRIPTION:**

You can park your car nearby the church or in front of the local supermarket (*Spar Markt*). If you can't find any parking space, just drive on for about 150m. Then you'll see a large parking space on your right.

From the church, viewing *west* (outwards the valley) we walk the small metalled road upwards (on our left) to avoid the main street. After a few minutes the road descends towards a ski-lift (*Kapellbahn*) which will be closed during the summer (otherwise it wouldn't be a ski-lift of course!). Behind the ski-lift an unmetalled road continues through some trees. After that we come to a small metalled road again which we follow upwards (still going west). We'll reach *parzelle Höfle* within a few minutes.

Past the house with number 396, we still follow the road for 2 turns until we reach a signpost pointing towards the *Wormser Hütte*. Here straight on, left from the house / chalet on the grass for about 15 meters where the path bends into the woods. Here we find another signpost pointing towards the *Wormser Hütte*. We cross the *Frauenlobtobel* and after about 20 minutes we see the *Kapellbahn* ski-lift again. On the right side of the ski-lift the path leads us, through an alp, towards *parzelle Gandlätsch*.

The way back is the same as the way there, or you can follow the metalled road at Gandlätsch downwards towards the church of Silbertal.

*My girlfriend and I made this tour during the summer of 2002*

---

***Difficulties:***

\* = Moderately easy tour (also perfect for a late afternoon walk). 2 hours max.

\*\* = With some physical condition, no difficulties. From 1 to 3 hours max.

\*\*\* = Average tour, a moderately, good physical condition is needed! 2 till 4 hours max.

\*\*\*\* = Difficult tour. Sometimes you have to use your hands to climb (not all the way, just some parts). Between 3 and 6 hours.

\*\*\*\*\* = Very difficult tour. Here you're at the boundary of 'real' mountaineering. The 'climbing factor' takes the overhand. Mostly between 5 and 7 hours.

***ps: some tours can be different than these ratings (like: a \*\*\*\*\* tour, with a duration of only 2 hours).***
